

Centre for Health Economics

Seminar Series

**‘Has NICE Got It Right?’
Health Technology Assessments (HTAs)
by the National Institute for Health and Clinical Excellence**

Presented by

Prof Michael Schlander, M.D., M.B.A.

Date: Thursday 14th September 2006
Time: 1:00-2:00pm
Venue: RB Scotton Room
2nd Floor, Building 75
Monash University
Clayton, 3800

Points to be covered:

- NICE as a role model for the implementation of Health Technology Assessments (HTAs) including economic evaluation
- The Technology Appraisal process adopted by NICE
- A qualitative case study of a recent NICE Technology Appraisal
- Some observations: NICE “accountability for reasonableness”
- Some suggested implications for international policy makers

Presenter

- Founding Chairman, Institute for Innovation & Valuation in Health Care (InnoVal^{HC}, a not-for-profit research organization in Germany; since June 2005)
- Professor of Health Care Management, University of Applied Economic Sciences Ludwigshafen (Germany; since September 2002)
- Various management roles with international pharmaceutical companies (in Belgium, Germany, and USA; Managing Director, 1999-2002; Head of Strategic Business Unit / International Marketing, 1993-1999; Clinical Research & Development, 1987-1993)
- Experimental brain research and clinical neurology, Universities of Frankfurt am Main and Mainz (both in Germany, 1982-1987)
- Diploma in Health Economics (Stockholm School of Economics, 2002), MBA (City University of Bellevue, Washington, 1994), MD (University of Frankfurt am Main, 1985/87)
